

Time	Activity	Speaker	Title
8.30-9.15	Coffee, mingle		
9.15-9.30	Introduction	<i>Torbjörn Säll</i>	Introduction to the day
9.30-10.00	Talk 1	<i>Anna Tunlid</i>	Göte Turesson and the development of the ecotype concept
10.00-10.45	Plenary 1	<i>Timo van der Niet</i>	What can we learn about plant diversification from studying pollination ecotypes?
10.45-11.15	Coffee, mingle		
11.15-11.45	Talk 2	<i>Kerstin Johannesson</i>	Ecotype formation in marine snails, herring and cod, involves chromosomal rearrangements
11.45-12.15	Talk 3	<i>Björn Widén</i>	Diversity in an endemic species, <i>Helianthemum oelandicum ssp. oelandicum</i> on Öland - migration, introgression and ecotypic differentiation.
12.15-13.30	Lunch		
13.30-14.15	Plenary 2	<i>Hans Jacquemyn</i>	The role of mycorrhizal fungi in driving ecotype formation in partially mycoheterotrophic plants
14.15-14.45	Talk 4	<i>Sophie Karrenberg</i>	The role of ecological divergence for speciation in <i>Silene</i>
14.45-15.15	Coffee, mingle		
15.15-15.45	Talk 5	<i>Honor Prentice</i>	Genomic signatures of natural selection driven by fine-scale edaphic variation in a grassland plant
15.45-16.15	Talk 6	<i>Ruth Cozien</i>	Different strokes for different folks: Floral trait differences among pollination ecotypes reflect characteristics of contrasting pollinators
16.15-16.45	Talk 7	<i>Marie Branderud</i>	Parallel ecotypic divergence in the autotetraploid <i>Cochlearia officinalis</i> in Northern Norway
16.45-17.00	Break		
17.00-17.30	Talk 8	<i>Erik Svensson</i>	Ecotypes, ecomorphs or morphs? A zoologist's perspective on the legacy of Turesson
17.30-18.00	Talk 9	<i>Groa Valgerdur Ingimundardottir</i>	Intraspecific variation of <i>Scorzoneroideis autumnalis</i> - Turesson's ecotypes revisited
19.00	Dinner
